

## The Team Building Challenge

Worried that the top performers in your team work in their own silos? Work seems to be getting into a predictable boring routine for most team members? Thinking of creative ways to improve team communication & bonding?

We invite you to take **The Team Building Challenge!**

Using a powerful methodology of experiential learning mixed with elements of FUN and PLAY, our experienced team will work closely with your organization to develop a customized program for your team in an unconventional, but truly memorable way.

PLAY can bring back newness and excitement to the job. It helps deal with difficulties, promotes mastery of our craft and is an essential part of the creative process. As it is said, play is called "recreation", because it makes us new again. It re-creates us and our world. The workshop uses challenges to effectively unlock closed minds, stimulate fresh thinking and encourage meaningful dialogues that trigger learning that is often transferrable back to the workplace.

What makes **The Team Building Challenge** unique are:

- **A participative format** that ensures high energy levels and enthusiasm throughout the program. We completely agree with the wise man Plato who remarked, "You can learn more about a person in an hour of play than in a year of conversation". Let the conversations flow!

- How do we make  $1+1 = 3$  ? To make the whole, greater than the sum of its parts the secret sauce always is “**synergy**”. For it is when there is synergy between the new members in a team, that far more is accomplished than the individuals or groups could ever have achieved independently. The activities in The Team Building Challenge are specifically crafted with this objective in mind - to develop team skills and quickly break down barriers between the members of the team.
- **Unmatched variety of activities** – Constant innovation in designing new activities aimed at improving team bonding have made us one of the leading organizations in the Asia Pacific region in this field. Try our new and exciting activities, which include The Roller Coaster Challenge, Geo Caching Challenge, Lego Serious Play amongst others!!!
- **Power of facilitation** – Our skilled and experienced facilitators will guide your team through this journey of learning. We believe that the wisdom to solve any challenge or problem lies within the group, and the facilitator joins the participants on this voyage of self discovery through discussions and questioning to bring out this innate knowledge.

Our promise is to deliver a fun and enriching experience for the participants, while addressing the key objectives of improving team communication and bonding.

**FOCUS Adventure** headquartered in Singapore is one of the leading companies in the field of corporate learning with over 14 sites in Singapore, Malaysia, Indonesia and China.
